FOREWORD

This information on the major Health and Welfare Services in San Francisco was derived from the Department of Social Services "Ready Resource Reference" Handbook Series and other community and agency resources material. Staff of the Department continues to find that a directory is helpful for quick reference to community resources. For this reason, Community Services Division has brought up to date and has added to information that was contained in the prior Ready Resource Reference" last updated in 1973.

The Directory covers most common health and welfare needs. In the interest of achieving a compact and convenient size, the description of agency services are brief and may not include all functions and eligibility requirements. Due to the nature of some programs and institutions, changes are likely to occur frequently. Thus, in the interest of providing effective services for those being referred it is wise to check by telephone first to determine if the service is available or for specific information.

Inclusion of an agency does not imply endorsement nor is exclusion a reflection on the value or quality of an agency's services.

Community Services Division is grateful for information, suggestions and assistance provided by staff of the Department.

When you find listings that have become out of date, let Community Services Division know by calling 558-2951.
